Company Profile

HHH-TEC

Raising the standards of “MEP” Engineering and Contracting in Nigeria...

WHAT WE DO

HHH-Tec is a Mechanical, Electrical, and Plumbing Engineering Services Provider. We supervise, contract, and commission all MEP Systems.

Our team has worked on a multitude of projects ranging from high rise towers, to residential developments, hotels, and commercial developments.

We work closely with our clients step by step to build a relationship based on trust where we add value.

We submit samples for everything to get approval on material and pricing. Our attention to detail with the work we do is second to none. We do that with a very strict quality control process for all works we do.

In summary, our objective is to apply International Standards of building construction in the most cost effective way in Nigeria.
